

ACCIDENT/INCIDENT INVESTIGATION REPORT

JAG'D CONSTRUCTION

Date of Incident:		Time: AM PM		Day of week:	
Date of Report:			Weather:		
Project Manager:					
Superintendent/Foreman:				Project name:	
Exact location of incident:				Drug-screen administered: Yes No	
Street Address:				If yes, list employees:	
City/State/Zip:					
Are there any witnesses? Yes No				See page 5 for witness instructions	
Type of incident:	WC	GL	Auto	Equipment	Theft/Vandalism Property Utility
Injured employee name:				Employee ID#:	
Employee home address:				Phone:	
Street address:				Date of birth:	
City/state/zip:					
Occupation/job title:				Years experience:	Date of hire:
Time employee started work: AM PM					
Onsite first aid given: Yes No				If yes, what:	
Offsite medical treatment: Yes No				If yes, which treating facility?	
Date treatment given:				List PPE worn at time of incident:	
Shade/draw the specific body part(s) injured:				INCIDENT TRACKING	
				(See page 6 for code #'s)	
				Body part:	
				Injury:	
Detailed description of injury:					
Incident designation:					
First aid only					
Non recordable - Medical treatment					
Recordable - Medical treatment					
Restricted work, recordable - Lost time					

	Property owner name:		
	Property owner address:		
	Street address:		
	City/State/Zip:		
	Detailed description of damages: (draw diagram - next page)		
Estimated damage:		Pictures taken: Yes No	
If utility strike please indicate the following:			
Electrical line	Phone line	Gas line Water line	
Marked	Mismarked	Unmarked Cable line Other	
Was call made: yes no	By whom:	Date: Ticket #:	
Operator name:		Equipment/vehicle #:	
Rental: Yes No	Rented from:		
Rental company phone number:	Estimated damages:		
Did operator obey all applicable safety rules? Yes No If no, list exceptions:			
Did authorities respond (fire, police, ambulance, etc)?		Responding authority:	
		Contact person:	
		Phone #:	
Was there property damage? Yes No If yes, please specify:		Report/Incident #:	
Please list vehicle damage:			

[illegible][illegible][illegible][illegible][illegible]

	Was there any type of planning (ex: safety meeting, daily huddle, toolbox talk, etc) that discussed the potential for this incident and the safe work procedures to be followed to prevent it? Yes No -Attach documentation to support findings.				
	What was the root cause(s) for the incident?				
	Contributing factor(s) for the incident (weather, lighting, traffic control plan, communication of hazards, etc):				
	Corrective action(s) taken or planned to be taken:		By whom	Est'ed date	Date completed
	Incident discussed with employee to prevent recurrence?				
	YES NO				
	Any disciplinary action taken?				
	If yes, what type?				
	Possible actions to be taken to prevent similar incidents (circle appropriate action):				
	1. Repair/replace or modify equipment		6. Ergonomic enhancement		11. Retraining of employees involved
	2. Improve jobsite housekeeping		7. Establish a safe (or safer) work procedure		12. Preventative maintenance
	3. Update inspection procedure		8. Improve environmental conditions		13. Improve enforcement
	4. Eliminate/reduce congestion		9. Require/change PPE		14. Modify procedure & retrain
	5. Change design		10. Install safety guard/device		15. Reassign employee to another job
Follow-up communication					
Injury site reviewed by supervisor/safety representative with employee			Yes	No	
Supervisor reviewed incident with employees			Yes	No	
Lessons learned posted in safety review - if yes, what?			Yes	No	

EMPLOYEE WITNESS STATEMENT FORM			
(TO BE COMPLETED FOR WORKERS' COMPENSATION INCIDENT ONLY)			
Witness name:			
Street address:		Work #:	
		Home #:	
City/state/zip:		Cell #:	
Date and time of incident:		List other witnesses:	
Supervisor notified date and time:		Supervisor name:	
This is what happened (include who, what, where, when, how, why): 			
Do you recall anything unusual or unexpected that happened? Yes No If yes, explain: 			
Are there work conditions that contributed to this injury? Yes No If yes, explain: 			
How would you prevent this incident from happening in the future? 			
PLEASE USE AND ATTACH ADDITIONAL PAGES IF NECESSARY		Witness Signature: _____ Date: _____

ACCIDENT TYPE			
1	Falls on same level. Slips, trips, or falls on foot level surfaces such as the ground, floors, stairs, work platforms, or rebar. Includes slips on mud, liquids, ice, and other slippery surfaces and trips over obstacles such as tools, cords, rocky or uneven surfaces.		
2	Falls from elevations: Falls to a lower level from elevated surfaces. Includes falls from structural steel, scaffolds, work platforms, form work, equipment, etc.		
3	Falls from ladders: Falls from portable or fixed ladders including stepladders.		
4	Falls into openings. Falls into floor holes, openings in the ground (i.e. caisson holes, unguarded ditch/excavation, etc)		
5	Material handling - Manual: Injuries from manually moving tools, equipment, or material. This includes over exertion due to lifting or carrying material manually and usually results in sprains/strains of the back and other body parts.		
6	Struck by/against object-Eye: Eye injuries only caused by grinding, chipping or other operations. Includes windblown dust and foreign bodies entering the eye.		
7	Struck by/against object: Injuries caused by employees being struck by flying or moving objects, or injuries caused by employees bumping into/against stationary objects.		
8	Struck by flying object-eye: Eye injuries only caused by grinding, chipping or other operations. Includes windblown dust and foreign bodies entering the eye.		
9	Occupational Illness - including the following: - a Skin disease/disorders.....poison ivy, heat rash, contact dermatitis, etc - b Dust disease of lungs - silicosis, asbestosis, etc - c Poisoning due to toxic materials - lead or other metal poisoning and poisoning by carbon monoxide or other gases - d Illness due to physical agents - sunstroke, heat exhaustion, frostbite, or other illnesses caused by temperature extremes or environmental conditions. - e Disorders caused by repeated trauma - carpal tunnel syndrome, noise-induced hearing loss.		
10	Electrical contact: Injuries resulting in electrical shock caused by flow of electric current through the body. Includes shock from power tools, electrical cords, and contact with overhead power lines.		
11	Burns: Injuries resulting in thermal (heat) or chemical burns. Includes burns caused by welding/cutting operations, or use of chemicals.		
12	Miscellaneous: Avoid using this category. Only mark the category if the injury or illness doesn't fit into another general accident type.		
CAUSE CODE		PART OF BODY	
1	Improper handling of material	10	Defective equipment/tools
1	Ankle	10	Hand/finger
2	Improper fitting	11	Improper/defective walk area
2	Arm	11	Head
3	Improper use of tools/equipment	12	Slippery/rough surface
3	Back	12	Knee
4	Making safety devices inoperative	13	Poor housekeeping
4	Chest	13	Leg
5	Failure to use PPE	14	Improperly piled material
5	Elbow	14	Neck
6	Taking unsafe position	15	Windblown dust
6	Eye	15	Shoulder
7	Clean, adjust, etc of moving equip	16	Congested area
7	Face	16	Wrist
8	Horseplay, distracting, fighting	17	Poor working conditions
8	Foot/toe		
9	Improper/inadequate guarding	18	Miscellaneous
9	Groin
